

Coastal Navigation

Provider: Alaska Marine Safety Education Association

Length: 8 Hours

Website

http://www.amsea.org/training/rec_boat.html

Coastal Navigation is designed for small vessel operators who travel on coastal waters, especially the Inside Passage of Southeast Alaska, Prince William Sound, and other near-shore areas. This course can be customized to meet the needs of specific mariner groups including sailors, kayakers, and long-distance cruisers. Cost for this course varies.
